

# Health and Sex Education Team

## Introduction

The outbreak of the covid-19 pandemic has caused panic in Hong Kong. There are myths and conspiracy theories often trusted wrongly because of the advanced internet. Health and Sex Education Team has the responsibility to correct such misinterpretation and transfer the correct information

## Mission

We have a total of 3 missions.

1. To strive for encouraging our fellow schoolmates to stay healthy. Inspiring activities, for instance, Joyful Fruits Day will be held to remind students to have more fruits.
2. To be dedicated to improving our schools' public health by transferring correct health and sex knowledge through organising activities such as talks.
3. To work hand in hand in promoting a clean school environment by constantly reminding our schoolmates to keep a decent personal hygiene.
