

# About Us

*Established in 1977, the Chinese History Club has been promoting the history of our country in Queen's College. Our aim is to raise our students' interest in Chinese history and culture, allow them to understand the story behind things related to our daily life, acquire more knowledge in these aspects, target to generalize the rules of historical evolution and formulate unique historical views through investigating Chinese history. We also organized some trips to visit some famous historical sites as we believe that travelling brings about far greater benefits than mere reading. We will strive to provide more activities for our students. Please keep track and pay close attention to our club's future development. Thank you very much.*

*Please click the link provided on the website, it is our club introduction video. We will introduce more about our club there. Thanks a lot.*

Please follow, like and share our Instagram page. We have been uploading an Instagram Chinese History article series named as 《齊渡史橋》  
We need your support, below is the QR code attached.
