

# Social Service Club

Being one of the largest scale clubs in Queen's College, the Social Service Club has played an important role for many years. Our aims are to place concerns on developing students through active participation in thoughtfully organized services that meet the needs of communities. We provide them with opportunities to get in touch with society and realize their roles which they play and core values in society. But due to the outbreak of COVID-19, our club's activities were limited. Fortunately, with the help and support from the teachers' advisors, our club has successfully held a few events.

Community Chest Casual Wear Day is one of the most special days every year. We can wear casual clothes to school as long as they donate money on that day. This year, a total of 822 students and teachers have participated in it. Thanks for their whole-hearted support, we raised \$87998 and the proceeds were given to various charities.

The Hong Kong Volunteer Service Award Scheme organized by the Social Welfare Department, is to honor the students who participated in volunteer social services, the school has nominated them to award scheme organized by the Social Welfare Department. During the year, we obtained 37 awards including Gold, Silver and Bronze awards.

In addition, we had a series of comprehensive activities for Form 4 and 5, including the leadership trainings for Form 5 which were held on internet. Also, we held a leadership talk lecture for Form 4 and 5, hoping to train their techniques of leadership, communication skills and bring up their sense of responsibility. Furthermore, a Form 4 and 5 social learning scheme were held, aiming to draw student's attention to the underprivileged groups and train up their sympathy.

It has been a long time since the Social Service Club was established. Through services and activities, our members have developed a high degree of social awareness. In the future, we hope that we can still uphold the values and visions of the Social Service Club.
